Kong Game  
Enhancement and  
Promotion Scheme  
(7/2024 - 8/2024)

## Summary

I am currently pursuing BEng/BSc in Computer Science. My passion and proficiency are rooted in web and app development, as well as game programming. Driven by a commitment to excellence, I am eager to elevate my development skills and contribute my best in the trainee position.

## Skill Highlights

- Responsive web and database application development using Bootstrap, PHP (Laravel), JSON, SQL, Python, C++, RESTful APIs.
- Single-player 3D and 2D mobile game development with Unity
- 3D modelling and game asset development with 3ds Max and Photoshop
- Real-time animation creation with 3ds Max, Unity and Audition
- Linux server setup, administration and troubleshooting
